Evaluating Large Language Models: Acquisition and Usage of Code Modules [ ] 05/2023 - 11/2023
w/ Pradeep Dasigi, Dzmitry Bahdanau, Siva Reddy
- Developed a framework to assess the ability of LLMs to in-context learn novel libraries and code functions.
- Showed that even smaller, open-source models such as StarCoder can learn code libraries in-context and that models such as GPT-4 can learn as efficiently from natural language descriptions as they can from demonstrations.

Presented at NAACL 2024
